

REFERENCE FOR THE HAVEN

To Whom it may concern

I have on a number of occasions asked the Haven to come into work with my Year 10 Religious Studies classes to look at the issues around having a baby. They have shown great professionalism and sensitivity with dealing with these issues with students. Their presentation has taken account of the different styles of learning of the students.

They were also receptive to the ideas I suggested about modifying their presentation for the classes they were used in. They were also able to take on board my suggestions subsequent to the lesson.

I will be using them again and they have my unreserved endorsement. A visit from the Haven to PSHE/RE/Citizenship would be an excellent way to help develop students reflect on the issues surrounding pregnancy.
